LANGUAGES

English Advanced · C1 (EF SET)
French Native

INTERESTS

Football & sports · Video games · Music · New technologies & AI · Entrepreneurship

01. PROFILE

Full-stack developer with **3 years** of freelance experience building complete, well-finished web products end to end — from spec to production. Strong on **React / Next.js** and TypeScript, with solid back-end skills (Laravel, Node.js, Python) and a focus on **automation (n8n)** and **AI integration**. Looking to join a product team, remote or on-site, to build reliable and secure applications.

02. EXPERIENCE

- 2023 — Present · Remote & Cotonou, Benin**
Full-Stack Developer — Freelance
 - Designed and delivered websites and web apps for **local and international** clients, from spec to production.
 - Built and deployed **9 projects across 5 stacks** — Laravel, React (incl. a Gemini AI integration and a real-time Firebase app), Vue, Next.js and Flask/Python.
 - Automated recurring workflows with **n8n** and **Python** to remove repetitive manual tasks and save clients time.
 - Hardened application security (**Firebase** access rules, deployment best practices) for reliable production releases.

03. FEATURED PROJECTS

- Next.js · Prisma · PostgreSQL**
GestionPro — Business ERP ↗
SME ERP: inventory, purchases, sales, clients and dashboards, with **role-based** authentication.
- Laravel · PHP · MySQL**
Afro Flash Bénin ↗
Benin news platform: **Laravel** back-end, relational database and section management.
- Next.js · GSAP**
Meraya ↗
Premium event landing page for a fashion brand: **GSAP** animations and online booking.
- Next.js 15 · TypeScript**
JOJO E-Commerce Mastery ↗
E-commerce learning platform: member area, courses and AI assistant, built with **Next.js 15**.
